Christian Healing UK
is an affiliation of
Christian healing organisations
and healing advisers across the UK.
It is a forum which provides
a vehicle for connection and
fellowship for the member organisations,
which is based on mutual support,
respect and friendship in Christ.

The member organisations are diverse,
each unique in the ministry that it offers.
All, however, are united in a desire
to bring Christ's healing ministry
to those in need.

Member organisations believe
the Biblical principle, that when
we work together as a body we are
more effective than when we work alone.
